EDUCATION

Arizona State University

Bachelor of Computer Science

- 3.93 GPA

Tempe, AZ

Aug 2022 – May 2026

TECHNICAL SKILLS

Programming Languages: Python, Java, C/C++, SQL, Swift

Cloud: AWS (EC2, S3, Lambda, Cognito, Route 53, Lightsail)

Databases: MySQL, MongoDB, Aurora

Tools: Git/GitHub, Linux, Apache, SSH, Figma

AI/ML: OpenCV, TensorFlow, Keras, Hugging Face

Certification: AWS Certified Cloud Practitioner (Amazon Web Services, 2025)

EXPERIENCE

Entrepreneurship Student Grader

Aug 2025 – May 2026

Arizona State University

Tempe, AZ, USA

- Evaluated 100–150+ assignments weekly using AI-assisted tools, ensuring consistency and accuracy across large datasets
- Supported 50+ students, contributing to a 10% improvement in overall course performance

Intern

May 2025 – July 2025

Principled Innovation Academy, Arizona State University

Tempe, AZ, USA

- Built an AI-powered platform to automate 500+ internship applications and resume customization using LLMs
- Implemented NLP pipelines achieving 95% accuracy in resume parsing and role matching

Undergraduate Teaching Assistant, Introduction to Engineering

Aug 2024 – Dec 2024

Arizona State University

Tempe, AZ, USA

- Assisted a class of 40 students with MATLAB and Arduino-based engineering projects
- Developed an interactive graph-based game to reinforce programming and logic concepts

Cloud Intern

May 2024 – July 2024

eWebGuru

Noida, Uttar Pradesh, India

- Managed 30+ Linux and Windows servers across VPS and shared hosting environments
- Configured Apache, DNS, SSL certificates, and resolved production issues via SSH
- Used cPanel and DirectAdmin to optimize server performance and support 70+ clients

PROJECTS

VoiceGuide | React, Vite, Tailwind CSS, OpenAI Vision, Whisper, TTS, MediaStream API

March 2026 – March 2026

- Built a real-time AI web app for visually impaired users with audio-based navigation and interaction.
- Developed frontend using React, Vite, Tailwind CSS; integrated OpenAI Vision, Whisper, TTS, and MediaStream API.
- Implemented real-time processing pipeline for navigation and voice queries with low-latency audio feedback.

SimplyGraph | Python, AWS, Lambda, Cognito, Aurora, Desmos

Sept 2025 – Sept 2025

- Built an AI-powered SAT math tutor integrating Desmos for interactive problem solving and AI-generated hints.
- Built a serverless backend on AWS using Lambda, Cognito, Secrets Manager, and Aurora RDS to support authentication and scalable data storage.

Askademia | Gemini AI, MongoDB

April 2025 – April 2025

- Won MLH Best Domain Name Award (GoDaddy Registry) for innovative project concept and execution.
- Built an AI study assistant using Gemini AI and MongoDB; deployed full-stack app and presented at LAHacks.

Academic Help System | Java, MySQL, SQL

Oct 2024 – Dec 2024

- Built MySQL backend to manage user accounts and help articles using Connection, PreparedStatement, and ResultSet.
- Implemented encryption with javax.crypto and handled data serialization using org.json and file I/O.

Hand Gesture Recognition with Text-to-Speech | OpenCV, Keras, Pyttsx3

Dec 2024 – Dec 2024

- Built a real-time gesture recognition system using OpenCV and Keras to classify A–Z gestures with 85% accuracy.
- Integrated Pyttsx3 for text-to-speech to announce detected gestures with both visual and audio feedback.

LEADERSHIP

Mentorship Program Director

Jan 2025 – May 2026

Women in Computer Science, Arizona State University

Tempe, AZ, USA

- Led WiCS mentorship program and participated in weekly computer science and software engineering meetings.

Public Relation Director

May 2025 – May 2026

Coalition of International Students, Arizona State University

Tempe, AZ, USA

- Oversaw outreach and engagement for 50+ cultural clubs through events, email, and social media.
